The Class AAA Shares' net asset values are used to calculate performance for the periods prior to the issuance of Class A Shares on November 26, 2001, Class C Shares on August 3, 2001, Class I Shares on January 11, 2008 and Class T Shares on July 5, 2017. Notwithstanding the limitation of expenses, the actual performance for Class C, Class A, and Class T Shares would have been lower and Class I Shares higher due to the different expenses associated with those classes of shares. Effective October 1, 2005, the expense limit was no longer in effect. Performance for periods of less than one year is not annualized. Class A Shares (load adjusted) includes the effect of the maximum 4.00% sales charge at the beginning of the period. Class C Shares (load adjusted) includes the effect of the applicable 1% contingent deferred sales charge at the end of the one year period. Class T Shares (load adjusted) includes the effect of the maximum 2.50% sales charge at the beginning of the period. The Fund imposes a ©2018 Teton Advisors, Inc. All Rights Reserved
